

RUF HR

Management Consulting & Solutions

HR Leadership Consulting

Fact Sheet

Product description

We accompany you as an executive - depending on your needs, already in ongoing application processes and before you start your job. As a sparring partner, we provide you with competent, solution-oriented and discreet support.

Goal

Your success is our goal. We offer you security, reflection and - most importantly - concrete approaches to action so that you can quickly become productive and shape your area of responsibility.

Procedure

Depending on the situation, we flexibly adapt to your needs. We are there for you when you need us and with the tools you need. These are, for example, interview and assessment centre simulations, various leadership instruments and inputs. The focus is on a trusting exchange, promptly and through all appropriate channels. We are structured and maintain an eye for what is essential and decisive. We provide orientation and organise work efficiently and satisfactorily for our staff. Depending on the task at hand, we apply different methods - whereby we assess the benefit of a procedure according to the extent to which it helps to achieve the goal. For us, impact is more important than mere doctrine.

Costs & Billing

We invoice our work flexibly according to demand at an hourly rate.
